POLICY

Late Arrivals
Please arrive 15 minutes prior to your appointment. All scheduled appointments have a 15-minute grace period to allow for unexpected traffic or parking difficulties. If you anticipate arriving later than 15 minutes, please call ahead to check if we have availability to complete your service in full.
One late client can disrupt our entire schedule and cause delays for other clients. Therefore, if you arrive more than 15 minutes late, we will treat you as a walk-in and try to accommodate you in the next available unbooked slot.

Cancellations
No-shows and last-minute cancellations mean that we have reserved a time slot for your appointment, resulting in a loss for our business. All cancellations must be made at least 24 hours prior to your appointment.

Eve Onboard reserves the right to refuse bookings to clients who continuously no-show, fail to call or message, display disruptive behaviour, or refuse to comply with Eve Onboard's company policy.
For last-minute cancellations, you may cancel up to 3 hours in advance by calling, sending a WhatsApp message, or using our online booking system. Please provide at least 3 hours' notice so that we can offer your reserved time slot to another client on our waiting list. We understand that emergencies happen and it's not always possible to give adequate notice.

Complimentary Fixes
We offer a 5-day repair policy. If your nails chip, tear, or lift within 5 days, we will fix them free of charge. After this period, a repair fee of R40.00 per nail will apply. Nail sets should last approximately 14 days if well cared for.
If you are ever dissatisfied with any service, we will gladly make the necessary corrections to meet your expectations within 3 days of your original service.
No refunds will be issued once a client leaves the salon, as this indicates satisfaction with the service received.
Remember, nails are jewels, not tools—treat them kindly and they will remain beautiful for weeks after your service.

EYELASH POLICY

Post-Appointment Care and Follow-Up
If you experience any issues or concerns after your session, please inform Eve Onboard as soon as possible. Most issues can be addressed at no charge within two (2) days of your appointment, provided you have followed proper aftercare instructions. Any service follow-ups requested after this two-day window will incur a charge.
If you notice abnormal lash fallout, it is your responsibility to contact us immediately so we can assist you and review your home care routine to resolve the issue. Please note that we cannot be held responsible for lash longevity after one week from your appointment.

Discomfort or Reactions
If you experience any discomfort, itchiness, redness, excessive shedding, or any form of irritation within 2 days of your appointment, please contact any Eve Onboard branch immediately.
We highly recommend that you have your lashes soaked off free of charge at any of our Eve Onboard branches. In such cases, In such cases, you will be offered either a full refund or complimentary re-do of a new set within 48hours.
Please note: If the lashes are not soaked off by Eve Onboard, no refund will be granted.

Before Your Appointment
- *Please avoid alcohol or caffeine prior to your appointment, as these may cause your eyes to quiver or twitch.*
- *If you wear contact lenses, please bring your glasses, as contact lenses cannot be worn during the lash application.*

Lash Maintenance and Refills
If more than 50% of your lashes are detached or grown out, it will be considered a new full set. Your therapist will assess your lashes before starting your session.
For 3+ week fills, a new full set will also be required. Even with great lash retention, proper maintenance is essential to keep your natural lashes healthy. Grown-out extensions must be removed to prevent damage to your natural lashes.

Eyelash Aftercare Policy
Lashes are beautiful but delicate — and proper care is key to keeping them that way. The longevity and look of your lashes depend on how you care for them.
Here are a few home-care tips:
• Avoid water around the eye area for the first 24–48 hours.
• Sleep on your back or side — avoid pressing your lashes against the pillow.
• Avoid oil-based products around the eyes.
• Avoid touching or rubbing your eye area frequently.
• If your eyes itch, gently rub instead of scratching.
• Apply makeup carefully and avoid rubbing your lashes.
• Do not use mascara — it adds weight, requires cleaning, and may cause lashes to fall off prematurely.
• Gently brush your lashes daily with a clean lash brush to prevent tangling.
• Lastly — look at them, but leave them alone! ?
